VariShock was created as an in-house developed and manufactured line of shocks and struts, giving us absolute control over the feature sets, dimensions, and quality of the shocks. The VariShock product line offers an affordable and versatile, high-end performance improvement over the various markets that Chassisworks serves.

- **Product Line Versatility**
  Simple bolt-on replacements to road- and drag-race

- **Custom Solutions**
  Builder Shock Program allows complete shock configuration

### VariShock Valve Adjustments

#### SensiSet
Ride-sensitive valving that is factory-set.

#### QuickSet 1
A single-adjustable shock with a 16-step knob that adjusts bump and rebound simultaneously.

#### QuickSet 2
A double-adjustable shock with a 16-step adjustment on both bump (compression) and rebound (extension), allowing 256 combinations of control.

#### QuickSet 4
Four-way shock tuning with separate 16-step high- and low-speed adjustment of bump (compression) and rebound (extension) for ultimate control of ride and handling.
