

Billet Aluminum GM Side Motor Mounts for g-Machine and Custom Crossmembers

Billet Side Motor Mounts

CNC-machined, billet aluminum side motor mounts enable bolt-on installation when used with our g-Machine crossmember, direct-fit subframes, or 2 x 2" mandrel-bent crossmember. Mounts are available with standard three-bolt pattern for Chevrolet V8 small-blocks and big-blocks and 4.3L V6s; or four-bolt version to accommodate the modern LS-series of GM engines. The steel-sleeved, urethane bushing with 1/2" through-bolt design creates an inseparable mount with significant vibration reduction compared to solid mounts. Mount kits include all hardware and are available with matte-anodized or polished finish.

Part Number	Description	Price
6007-1	Billet Aluminum, Chevrolet Side Mount, LS Series, Matte Finish	\$269 ⁰⁰
6007-2	Billet Aluminum, Chevrolet Side Mount, LS Series, Polished Finish	289 ⁰⁰
6055-1	Billet Aluminum, Chevrolet Side Mount, SB, BB, V6, Matte Finish	189 ⁰⁰
6055-2	Billet Aluminum, Chevrolet Side Mount, SB, BB, V6, Polished Finish	219 ⁰⁰

2 x 2" Custom Engine Crossmember

Constructed of .120"-wall, 2 x 2" tube, this mandrel-bent crossmember is 42" wide (and can easily be shortened if necessary), fits LS-series and small- and big-block Chevy engines, and provides 6" of oil-pan clearance from the bottom of the engine block to the top of the crossmember drop. The passenger side of the crossmember has an adjustment slot in the motor-mount tabs to facilitate engine installation. Uses billet side mounts (6007-X or 6055-X) and optional spud hardware (3046).

Part Number	Description	Price
6060	2 x 2 x .120"-wall, 42"-wide, Engine Crossmember (cut to fit)	\$99. ⁰⁰

Motor-Mount Spud Hardware (Optional)

Specially designed, CNC-machined, polished-stainless-steel mounting hardware is optionally available for use with our billet aluminum side motor mounts. Male and female fasteners feature matching Allen-drive, beveled heads for simple installation and excellent appearance. Once tightened against each other, fasteners form a full-length shank with no external threads, providing higher shear strength than standard bolts and correct bushing preload.

Part Number	Description	Price
3046	Motor-Mount Spud Hardware Set, Chevrolet Side Mount (6007 or 6055), Polished Finish	\$70. ⁰⁰
