

Adjustable Billet Lower Coil-Over Shock Mount for '79-04 Mustang OEM and FAB9™ Housings

5811-M40 (OEM) -

The billet block is specially contoured to correctly fit the factory-housing axle bracket.

Features

- 2-3/16" to 3-1/16" ride-height adjustment range
- Adjustable in 7/16" increments
- OEM housing: six adjustable ride-height positions
- FAB9™ housing: eight adjustable ride-height positions
- Billet steel adjustment bars specifically featured to fit housing axle bracket
- Precision laser-cut steel mount tabs
- Grade 8 mounting hardware

Adjustable Billet Lower Shock Mount

Our bolt-on, adjustable, lower shock mount kits are available for the direct-fit Fox chassis Mustang FAB9™ or 8.8" OEM rearend housings from 1979 to 2004. The bolt-together assemblies enable an increased range of ride height with finer adjustment increments compared with the standard mounts packaged with our direct-fit FAB9™ Fox housing. Adjustments are made in 7/16" increments to a maximum of 2-3/16" when used with the OEM housing and 3-1/16" when used with our FAB9™. Kits consist of billet steel mount bars, precision laser-cut mounting tabs, and 3/8" Grade 8 mounting hardware. This mount system is required for use with our coil-over shock conversion.

5811-M41 (FAB9™) -

The billet block seats flat against the FAB9™ housing axle bracket. Multiple axle-bracket mounting holes enable an additional 7/8" of adjustment.

Pricing

Part Number	Description
5811-M40	Adjustable Billet Lower Mount for '79-04 Fox Chassis with OEM Housing
5811-M41	Adjustable Billet Lower Mount for '79-04 Fox Chassis with FAB9™ Housing
