

**Control Arm and Housing Bearing/Bushing Sets
 for 1964-1988 GM A- and G-bodies**

Upper Axle Housing Spherical Bearings

Our axle-housing spherical bearing assemblies directly replace softer rubber or urethane bushings on most 1965-72 GM A-body and 1978-88 G-body vehicles. High-horsepower, performance vehicles will benefit from precise control of rearend housing movement and increased torque capacity due to the heavy-wall, billet-steel bearing housing. The 3/4"-bore, Teflon-lined, stainless, spherical bearings are rated at 37,000 lbs. (radial load), and allow up to 20-degrees of misalignment – more than adequate for bind-free, low-friction, operation at full suspension travel. Bearing sets include precision-fit spacers for use with OEM or aftermarket upper controls arms, and installation instructions.

Part Number	Description
5834-A10-HB	Direct-fit upper-housing spherical bearing for '65-72 GM A- and '78-88 G-body vehicles with 10- or 12-bolt rearend housing (pair)

Upper Axle Housing Urethane Bushings

Urethane bushing sets offer a noticeable performance improvement over the soft, OEM-style rubber bushings and can be used with stock or aftermarket upper control arms. The stiffer bushing material better controls rearend housing movement, making these an excellent upgrade for street-driven performance vehicles.

Part Number	Description
5834-A10-HU	Direct-fit upper-housing urethane bushing for 1964 GM A-body vehicles with 10- or 12-bolt rearend housing (pair)

Part Number	Description
5834-A11-HU	Direct-fit upper-housing urethane bushing for '65-88 GM A- and G-body vehicles with 10- or 12-bolt rearend housing (pair)

OEM Control-Arm Urethane Bushing Set

Urethane bushing sets offer a noticeable performance improvement for OEM upper and lower control arms. Each bushing features a steel housing and bolt sleeve to ensure correct bushing preload and extended service life. The set of eight replaces all bushings in the factory upper and lower arms. For use with 1965-88 GM A- and G-body vehicles with 10- or 12-bolt rearend housings.

Part Number	Make & Model
5834-A10-SU	OEM Control Arm Bushing Set, GM '65-72 A-body and '78-88 G-body vehicles (set of 8)
